

**Calibration Charges: D 3.03 Defibrillator Analyser & Defibrillator Machine Standard (w.e.f. 01.04.2021)****Parameters: (i) Energy (J) (ii) Resistance**

Sl. No.	Parameter	Item Type/ Group	Item Name	Alias Name	Range	No of Points for Calibration	Limitation/ Condition	Charges per Item Rs	Additional Charges Rs	Description for Additional Charges	Remarks, if any
1	Calibration of measured energy by Defibrillator Analyzer	Defibrillator Analyser (1 unit)	(i) Measured energy (J), (ii) Internal /load Resistance (Ohm)		150 J & 270 J at 50 Ohm	Two Points		16,500	16,500	Extra point: (i) 50J & 100J, (ii) Pacer Resistance	
2	Calibration of energy discharged by Defibrillator Machine	Defibrillator Machine (Max 5 units)	Energy Discharged (J) & Difibrillator Machine Resistance		50 J, 100 J, 150 J & 270 J at 50 Ohm	Four Points		8,250
